DAY 1

Skin Reset

Today is about understanding your skin and setting it up for a summer of glow. Simplified, intentional, effective.

MORNING ROUTINE

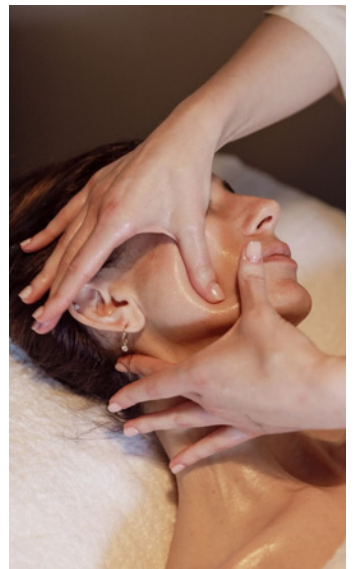

- **Gentle cleanser:** lukewarm water, 30 seconds — Removes overnight oil and product buildup
- **Vitamin C serum:** 2 drops, press into skin — Brightens and protects from oxidative stress
- **Lightweight moisturiser:** Gel or water-based works best in summer heat
- **SPF 50+:** non-negotiable, always last step — Your #1 anti-aging and glow-preserving product

EVENING ROUTINE

- **Oil cleanser:** fully melt off SPF and makeup — Don't skip this. SPF left on causes breakouts
- **Niacinamide serum:** A MUST! Minimises pores and supports skin barrier
- **Hyaluronic acid on damp skin:** Must be sealed immediately with moisturiser
- **Rich night cream or sleeping mask:** Skin repairs itself while you sleep

Ingredients that work in heat ☀️

Niacinamide: pore-minimising · Hyaluronic acid: deep hydration ·
Vitamin C: brightening · AHA/BHA: exfoliation (1-2x/week)

DAY 2

Body Ritual

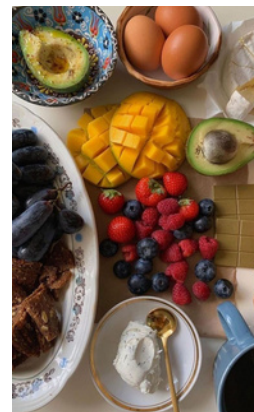

Your body carries you through everything. Today is about treating it like the sacred vessel it is: not punishing it, worshipping it. No body goals here. Just body love.

THE HOLY TRINITY OF BODY CARE

DRY BRUSH 5 minutes before your shower. Start at feet, stroke toward the heart. Boosts circulation, supports lymphatic drainage, visibly smooths over time.

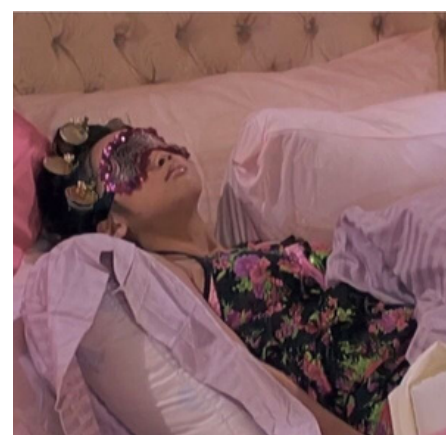

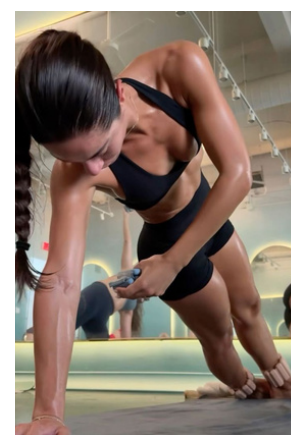

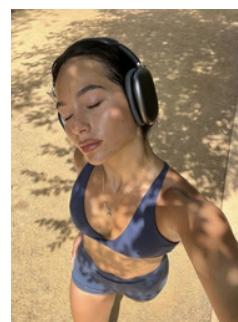

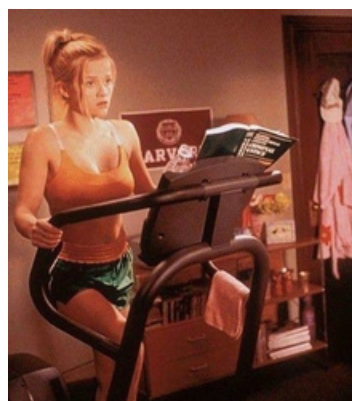

EXFOLIATE Body scrub in the shower, 2-3x per week. Focus on elbows, knees, ankles. Always exfoliate before self-tanning.

BODY OIL Apply on damp skin immediately post-shower. Massage with intention. This is your moving meditation, not a chore.

TODAY'S CHECKLIST

- ☐ A cup of water before touching your phone: Hydration starts the glow
- ☐ **20 min movement:** walk, yoga, stretch, dance. Not for calories. For how it makes you feel.
- ☐ Dry brush → exfoliate → shower ritual
- ☐ **Body oil or rich lotion:** neck to toes. Take your time. No rush.
- ☐ Wear something that makes you feel good today. **Dress for yourself.**
- ☐ **Reduce sweet treats.** Not eliminate, but reduce substantially.
- ☐ **The cold water rinse:** End your shower with 30–60 seconds of cold water. It constricts blood vessels, reduces inflammation, tightens skin, and gives you a natural energy hit.
- ☐ **Gua sha** on the face and neck. Use with facial oil. Stroke outward and downward along the jawline, neck, and collarbones. Do it for 3–5 minutes every morning.

SELF-TAN TIPS

Exfoliate 24hrs before applying. Always use a tanning mitt. Mix drops into moisturiser for the face. Dilute with lotion at knees and elbows.

DAY 3 Nourish From Within

Glow starts in your gut. Today is about what you put in: food, supplements, rest. Real nourishment, not restriction. Your skin reflects everything you give your body.

NOURISHMENT CHECKLIST

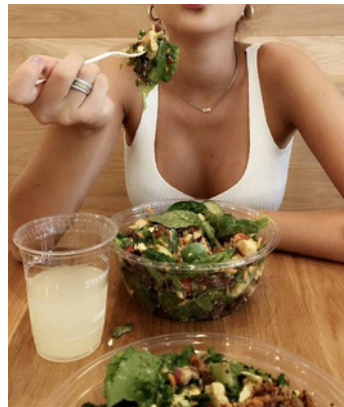

- ☐ 2–3L water throughout the day
- ☐ Around 100g of protein/day: Supports skin collagen and sustained energy
- ☐ Omega-3 rich food or supplement: Salmon, walnuts, flaxseed, fish oil
- ☐ Colourful vegetables: Antioxidants = visible skin glow
- ☐ Limit sugar and alcohol
- ☐ In bed by 10:30pm: Sleep is your most powerful serum
- ☐ Peppermint or ginger tea after your biggest meal to reduce bloating
- ☐ Add healthy fats to every meal (avocado, olive oil, nuts, seeds). Your skin barrier depends on them

SUPPLEMENTS TO ADD

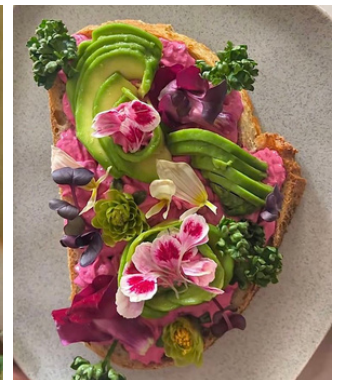

Collagen peptides: skin elasticity and joints
Magnesium glycinate: sleep quality and stress
Vitamin D3: mood, energy, immunity
Omega-3: skin barrier and brain function

Add to your diet:

- Fermented foods: kimchi, Greek yogurt, etc
- Prebiotic fibre: oats, garlic, onion, bananas
- Reduce ultra-processed food
- Probiotics

GUT HEALTH = SKIN HEALTH

DAY 4 Mind and Soul

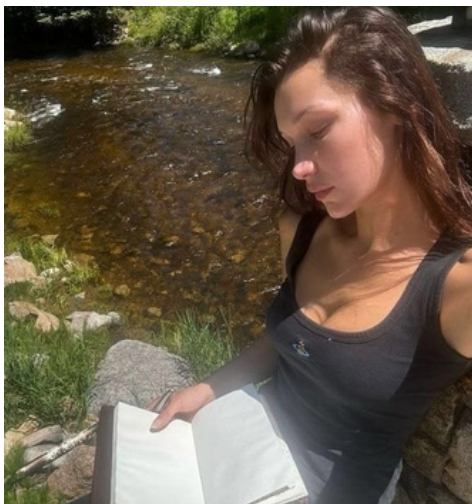

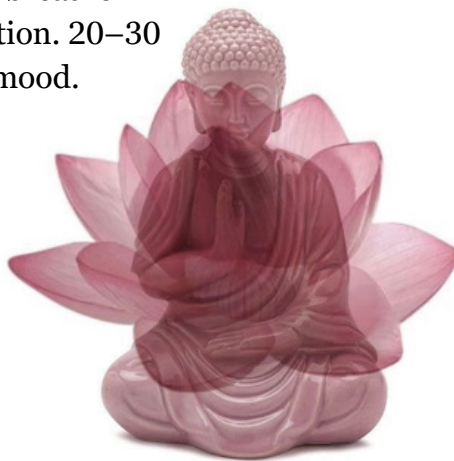

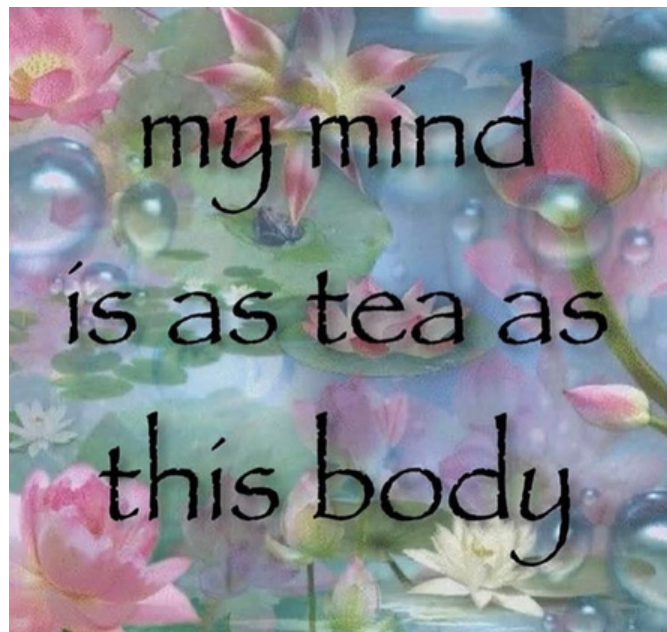

The most powerful glow-up is mental. Today is about clearing the noise and filling back up with what is actually yours. Your thoughts are the first thing you put on in the morning.

MORNING MINDSET STACK

- ❑ **No phone for the first 30 minutes after you wake up:** Protect your morning mind
- ❑ **5-minute journaling**
- ❑ **Set one intention for the day:** Not a to-do. A feeling to embody.
- ❑ **Hot girl walk:** 20 to 30 minutes; Podcast, music, or beautiful silence. Your call.
- ❑ **Screens off 1 hour before bed**

THE HOT GIRL WALK

Before your walk, set one intention. Listen to something that elevates you. Walk tall, breathe deep, and let it be your moving meditation. 20–30 minutes is enough to shift your entire mood.

DAY 5 Confidence and Identity

This is the core of the whole guide and the most important day. You can have the best skincare routine in the world, but if you don't believe you're worth showing up for, none of it lands.

RELEASE THESE TO ELEVATE YOUR CONFIDENCE

- ❑ Talking badly about yourself in the mirror or in your mind
- ❑ Saying yes when you mean no
- ❑ Shrinking to make other people comfortable
- ❑ Consuming content that makes you feel worse about yourself
- ❑ Waiting until you're "ready" or "good enough" to start
- ❑ Apologising for taking up space
- ❑ Comparing your chapter 1 to someone else's chapter 10
- ❑ Staying in situations that drain you just to avoid discomfort

feeling so
fun, sexy,
creative
and free

DAY 6 Beauty and Presence

Real beauty, the kind that makes people stop and look, isn't a look. It's a frequency. It's the way you walk into a room when you actually believe you belong there. It's your presence and what you radiate without trying.

YOUR ENERGY IS YOUR BEAUTY

Everything is energy, including you. The frequency you operate on determines what you attract, how you feel, and how you look. Stress, resentment, and anxiety are low-frequency states, and they show up on your face. Joy, gratitude, and presence are high-frequency states. They also show up on your face.

This isn't woo woo stuff. This is biology. Cortisol breaks down collagen. Joy releases endorphins that reduce inflammation.

Your emotional state is that magic skincare ingredient.

HIGH FREQUENCY HABITS TO ADD TODAY

- **Gratitude first.** Before your phone, name 3 things you're genuinely grateful for.
- **Speak kindly to yourself in the mirror.** What you say to your reflection is a direct message to your nervous system.
- **Clear your space, clear your energy.** Make your bed, open a window, light a candle. Your environment is a reflection of your inner state, and it affects your mood more than you think
- **Move your body to music that makes you feel good and powerful.** Frequency is literally in the music. Put on something that makes you feel like the main character, and let your body respond
- **Get outside and touch grass.** Seriously. Sunlight, fresh air, and nature lower cortisol, raise serotonin, and ground your nervous system. 10 minutes outside changes entire internal state

DAY 7 Your New Reality

Gratitude
Attracts
Abundance.

You didn't just complete a 7-day guide. You proved something to yourself: that you can show up consistently for yourself. That's the whole glow up. Now we make it permanent. Because your habits don't just shape your body; they shape your reality, your confidence, and who you're becoming every single day.

YOUR MIND SHAPES YOUR REALITY

The way you think in the morning sets the tone for everything that follows. Hot girls aren't just consistent with their skincare, they're consistent with their thoughts.

What you repeat to yourself becomes what you believe in. What you believe becomes what you do. **What you do becomes who you are.** Start every day with one intention. Not a to-do list. A feeling to embody. Calm. Unstoppable. Soft but unshakeable. Repeat it until it starts feeling like a fact.

BUILD THE HABIT

Habits compound. One good morning leads to one good day, which leads to one good week, which leads to a life that looks like the one you used to dream about. You don't need to overhaul everything overnight, just protect your non-negotiables and let them compound.

Miss a day? You're not starting over. You're continuing. Just keep going.

YOUR NON-NEGOTIABLE DAILY 5

- **SPF:** Every day, rain or shine. Your future self will thank you endlessly.
- **Movement:** 20 minutes minimum, for joy, not punishment. Walk, dance, stretch, lift. Move because your body can.
- **Hydration:** 2L+ water. Start with 500ml before your phone. This one habit changes everything.
- **Mind practice:** 5 minutes of journaling, affirmations, or gratitude. What you focus on expands.
- **Sleep:** 7–9 hours. Silk pillowcase. Screens off 1 hour before. This is when your body and mind rebuild.

**I GET PRETTIER
AND HOTTER
everyday!**
**I CAN'T WAIT
FOR TOMORROW**
